Sensor Hygienic Toilet Seat Cover

[pakolet.com.tr](http://pakolet.com.tr)

*Toilet seats  
have never been this  
Healthy and Hygienic!*

Pakolet, which was founded on the slogan of “health first” in 2014, aims to provide the best product and service. Owing to its revolutionary form, in order to satisfy the users’ hygienic needs, Pakolet Sensor Hygienic Toilet Seat Cover is produced from anti-bacterial materials and it prevents bacterial organism on toilet seats.

Hygiene roll is the consumable and disposable material of Pakolet Sensor Hygienic Toilet Seat Cover, which can be changed easily. The blade system, which restrains the re-usage of hygiene roll, is located in the hidden compound that is out of the reach of users, to ensure maximum security.

Pakolet Sensor Hygienic Toilet Seat Cover is more economical than toilet papers and regular toilet seat covers. Through its internal timer, the system will not work before 40 seconds after every press; therefore, it prohibits unnecessary use.

## Hygienic

You will be the first one to use the system every time you show your hand to the sensor.

## Secure

The system works with 12V electricity, there is no risk of getting electrocuted.

## Smart

The system detects how many times it should roll, by reason of its chip.

## Economical

Through its internal timer, the system will not work before 40 seconds after every press.

## Durable

It is water and moisture resistant.
